**RE: Wastewater Treatment Facility
Solids Handling Improvements**

Dear Mr. Oatley:

I am writing to notify you that the City of Taunton, MA has decided to move forward with Veolia North America's proposal for implementation of the Solids Handling Improvement Project through our existing Agreement dated August 20, 1998 and entitled Service Contract for Design, Construction, Operation, Maintenance and Asset Management Relating to City of Taunton, Massachusetts, Wastewater System. Please prepare and submit to the DPW Commissioner the statement of work under section 704 Capital Modification Submittal and include a detailed project schedule.

We are eligible and intend to access the Massachusetts State Revolving Fund Program (SRF) for financing this work. Your submittals need to incorporate the SRF requirements. We will have to obtain prior approval from MassDEP of both SRF eligibility and treatment plant modification permits. You should allow two months in your schedule to achieve these approvals.

We look forward to a successful project. Please direct all questions to the DPW Commissioner.

Very truly yours,

David T. Gay, Esq.
City Solicitor
